NEW WOODMAN HALL MUCH APPRECIATED

Building in Lanark Is the Scene of Happy Gathering—Amherst Soldier May Go to Philippines

Amherst, January 19—The Lanark people who live near the Hickey creamery, and especially the Woodmen who have built and organized the Woodman camp over there, are enjoying their hall and all that it means to them. They had no place for a gathering of any kind up to the time that this little hall was erected. Here they meet occasionally for a little old-time dance and at other times a neighborhood party and everybody has a good time. At a recent gathering in their hall, they had their usual big feed. (And that, by the way, is a regular feature of these meetings). We have it from the best of authority that the small crowd that turned out that evening entirely consumed a five-gallon pail of oysters. If any one has any doubt of the truth of this assertion, ask William Atkinson, as he was present.

Wouldn't This Jar You?

In Mr. Gordon's explanation of teachers' rooming condition in the rural districts he cites an instance in Michigan where a teacher left her school because she didn't like to have chickens roosting on her bed Surely, Mr. Gordon, you couldn't blame the chickens, and besides the results may not have been so bad as pictured for at least she could have had a feather bed and a chicken potpie We are also glad to note that teachers are coming from Marathon county on account of living conditions to teach in Portage county. It has been hinted in unofficial circles that th health officers of the various rural districts will have to keep close tab on the teachers in their respective towns. We now believe the superintendent isn't such a bad fellow after all

World Has Many Lepers.

Neither geography, climate, diet, heredity nor any other known influence sufficiently explains the cause, the distribution or the behavior of leprosy. There is no discovered certain cure for it, and the cases of complete recovery, if there have been such, are rare. To most Americans it is happily only a name made familiar by Biblical mention or by reports of missionaries to far-off lands; and the estimate that there are 2,000,000 of these hopeless sufferers in the world comes to many people as a surprise.—Rochester Post-Express.

ALLIES ASK DUTCH FOR THE SURRENDER OF FORMER KAISER

Note of Supreme Council Is Sent Holland and Dutch Premier Is Reported to Have Held Conference on Proposal—Actor Offers Self

The Hague, January 19—The Dutch premier has had a long conference with his foreign minister, presumably over the allied note demanding the extradition of the former kaiser, it was reported today. The Dutch officials, it is said, agreed to make representations to the former kaiser suggesting he offer to surrender voluntarily to the allies. The German naval attache conferred with the secretary of the foreign office, presumably over the surrender of the ex-emperor of Germany.

Note Is Dispatched

Paris, Jan. 19.—The supreme council's letter to the Dutch government demanding the extradition of former Emperor William has been sent to that government. It was forwarded officially during the night.

Former Empress Augusta Victoria of Germany, who is at present at Potsdam, contemplates entering a Protestant nunnery in England or America, according to a report received here from Basle. Her health is reported bad, but is said she is not in a serious condition.

Offers to Substitute

Berlin, Jan. 19.—Ferdinand Bonn, at one time the most popular actor in Germany, and a protege of former Emperor William, has offered to substitute himself for Count Hohenzollern and go to London made up as the former monarch.

"Not so much for the sake of William as for German honor would I do this," Bonn declared.

The actor was recently hissed in various sections of Germany because he impersonated the erstwhile emperor in a film dealing with the rise and fall of the Hohenzollerns.

He believes he is the only man in Germany capable of carrying out such a delicate mission and satisfying the allied demand for the extradition of Count Hohenzollern.

WHY ARMY QUITS SIBERIA

Statement by State Department to Japan Explains Undertaking Was Indefinite.

Washington, Jan. 19—The United States in deciding to withdraw its troops from Siberia, where it has participated in guarding the districts under allied control, did so because of present conditions there which make it impracticable to send re-enforcements and for the added reason that the purpose for which the troops were sent into Russia has been accomplished, the state department has informed the Japanese government. A note replying to a recent communication on the subject from Tokyo was made public. After setting forth its reasons for adopting the course announced the American reply expressed the belief that to maintain the status quo "might involve the government of the United States in an undertaking of such indefinite character as to be inadvisable."

Electric light and trolley wires were torn down by the shower of bricks, adding further hazard to the firemen and rescuers as well as to spectators who lined the railings watching the progress of the fire. NEW RUSSIAN POLICY ADOPTED BY ALLIES

Supreme Court Announces Officially That Blockade Against Bolsheviks Will be Lifted and Trade Resumed

Paris, January 17—The allies today apparently have adopted a completely new attitude toward Russia. The supreme council announced last night in an official conference that the blockade against Russia would be lifted at once. The council's action, in the view of many politicians, constitutes a direct about-face from its former policy. The council has decided to give Russia co-operative social facilities necessary to permit importation and distribution of merchandise as well as cereals, linseed oil, w and other products.
